<b>Office Action Summary</b>	<b>Application No.</b> 10/561,311	<b>Applicant(s)</b> BAECKER ET AL.	
	<b>Examiner</b> /Thor S. Campbell/	<b>Art Unit</b> 3742	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by GB 2158210

GB 2158210 discloses:

In reference to claim:

1. A device having a boiler for generating steam, in which the boiler inserted into a receptacle has a refill cap, located at the top, and a steam outlet opening , characterized in that the steam outlet opening is located in the upper lateral region of the boiler; that the boiler, below the steam outlet opening, is provided with an outflow opening , and a lower edge of the steam outlet opening and a lower edge of the outflow opening form a height of a boiling space, and the steam outlet opening corresponds to a steam conduit coupling of a steam conduit and the outflow opening corresponds to a closure part of the receptacle.

4. The device in accordance with claim 1 characterized in that the steam conduit coupling is provided with a seal.

6. The device in accordance with claim 1 , characterized in that as the

Art Unit: 3742

device , a steam treatment device is provided.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over GB 2158210 in view of Sham (US 5692315).

GB 2158210 discloses the claimed invention except:

In reference to claim:

7. The device in accordance with claim 6, characterized in that the steam treatment device (14) is provided with a steam hood (31) for a steam treatment of hair.

8. The device in accordance with claim 1, characterized in that the boiler (1, 1.1) is provided with an electric heater (21) and an electric coupling (22) and is embodied as a structural unit (32).

Sham discloses the claimed hood and electric heater. The combination would be obvious since the use of a device (i.e. the steam generator of GB 2158210) for a known use (the hood of Sham) is obvious.

***Allowable Subject Matter***

Claims 2-3, 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
